-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear what constitutes the metes and bounds of the "permanent magnet is in contact with said first facets over an entire surface of said first facets" given applicant's fig. 1 shows the facet of the top horizontal branch 26 as having no contact with the permanent magnet at its rightmost portion.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Steingrover, et al.

Steingrover disclosed an electromagnetic valve actuator (col. 2, line 48) comprising an actuator member 15 movable under the effect of a resilient member 19 and of at least one coil 12, and at least one permanent magnet 4 arranged to hold the actuator member in at least one of its extreme positions

against the resilient member when the coil is not powered, the coil being associated with a core comprising two portions (3,6) having respective first facets in contact with the permanent magnet and respective second facets that present between them an airgap 8 of size that is smaller than a thickness of the permanent magnet, said airgap forming a right angle with the direction of magnetization of the permanent magnet.

5. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Fisher.

Fisher disclosed an electromagnetic valve actuator comprising an actuator member 2 movable under the effect of a resilient member 3 and of at least one coil 10, and at least one permanent magnet 9 arranged to hold the actuator member in at least one of its extreme positions against the resilient member when the coil is not powered, the coil being associated with a core comprising two portions (5,8,11) having respective first facets in contact with the permanent magnet and respective second facets that present between them an airgap (located at thread of 5) of size that is smaller than a thickness of the permanent magnet, said airgap forming a right angle with the direction of magnetization of the permanent magnet, wherein said permanent magnet is in contact with said first facets over an entire surface of said first facets.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to RAMON M. BARRERA whose telephone number is (571)272-1987. The examiner can normally be reached on Monday through Friday from 11 to 5PM.
